

## GADGETS

Using knotting and lashing skills learnt in the previous session the girls can design and make several simple gadgets.

- **ACTIVITY 1 – Mini gadgets!**

Remind the girls of some basic square lashing and packers knot.

Popsicle sticks or bamboo sticks are a great way to make individual mini gadgets! Eg. notice board, rope ladder.

- **ACTIVITY 2 – Simple or complex gadgets**

Split the girls into small groups (2-4) and have each group make a simple or, if they're feeling ambitious, a complex gadget.

Eg. flag pole, dilly bag line, grease trap, tea towel hanger, handwashing station, dishwashing station.
