

BOIL IN THE BAG CAKE

Method

1 packet mix of cake and associated ingredients on the packet.

1 oven bag used for oven cooking.

Ingredients

Put water in a large pot to about 2/3rd of the depth of the pot. Place lid on the pot.
Heat the water till boiling.

Mix the cake mix ingredients in a bowl.

Put the mixture into the cooking bag.

Bring the top of the cooking bag together. Leave an air hole for the air to escape while cooking, or the bag explodes!

Place in the large pot of boiling water.

Put lid on the pot

Walk away and leave the mix to cook for 30-40 minutes

Serve with custard warmed in a saucepan

NB:

Take safety precautions so that when removing the bag and the contents from the pot, the pot and associated hot water are not moved.

Then when opening the cooking bag to get at the mixture beware of the hot steam from the bag. It can cause scolds!
