

1. What hazards should you look for when you're choosing a safe place to build a campfire?

- A. Tents or campers too close by.
- B. Loose paper or other flammable objects lying around.
- C. Low hanging branches.
- D. All of the above.**

2. What should you circle a fire pit with to contain the fire?

- A. Rocks or a metal ring.**
- B. You just need to dig a small hole and the fire will contain itself.
- C. Sticks or logs.
- D. Leaves and grass.

If you're camping in a place that doesn't already have a metal ring built in for campfires, dig a small pit and build a ring out of rocks.

3. Where should you stack the extra firewood?

- A. You shouldn't bring extra firewood.
- B. Upwind**
- C. Downwind
- D. Anywhere

You should stack your extra firewood upwind, where a strong breeze won't push the flames of your campfire toward it.

4. When should you collect a bucket of water to put out a campfire?

- A. After the fire is lit.
- B. Before the fire is lit.**
- C. As soon as you're ready to put the fire out.
- D. At any point during the campfire.

Always have a bucket of water and a shovel at hand before you light your campfire.

5. Which of these is a hazard around a campfire?

- A. Loose clothing.
- B. Untied shoelaces.
- C. Hair that isn't tied back.
- D. All of the above.**

6. How do you discard a match after using it to start a fire?

- A. Wait until its cold and then discard it into the fire.**
- B. Toss it over my shoulder.
- C. Place it in my pocket.
- D. Put it in the garbage bag.

Always wait until the match is cold. Because it is wood, you can discard it into the fire.

7. Aside from wood, what other materials is it okay to burn in a campfire?

- A. Aluminium cans.
- B. Styrofoam plates.
- C. Plastic utensils.
- D. Nothing. Just wood.**

8. How long is it safe to leave a campfire unattended for?

- A. 10 minutes
- B. 1 hour
- C. 30 minutes
- D. You should never leave a campfire unattended.**

Never leave a campfire unattended. Not even for a minute. That's how forest fires are started.

9. What is the safest way to extinguish a campfire?

- A. Smother it.
- B. Stomp it out with your foot.
- C. Leave and let it die down on its own.
- D. Pour a bucket of water on it.**

Carefully and gradually pour a bucket of water onto the flames. Stir wet coals and ashes with a shovel and then pour on more water until all the embers have gone cold.

10. If your clothes accidentally catch fire, what should you do?

- A. Scream for help.
- B. Run around.
- C. Pour water on yourself.
- D. Stop, drop and roll**

Stop, drop and roll! Stop, cover your face with your hands, drop to the ground and roll back and forth until the flames have been completely smothered.
