

Phonetic Alphabet Game

All the participants sit in a circle.

Each one is assigned a letter of the alphabet in order. A to Z (though of course if there are less than 26 players then not all the letters will be used)

The first Guide will say "Alpha to" and picks another letter eg "Alpha to Golf", the person with that letter must then pass on the command eg "Golf to Romeo" and so on.

If a Guide makes a mistake, eg the wrong person answers, or they state a word that is not part of the phonetic alphabet or that doesn't exist (or is too slow), then they are out.

The last person left is the winner.
